FLYING TRAINING ORGANIZATION

 **Urbeaero**

Flying...what a passion!

## The School

Our offices:

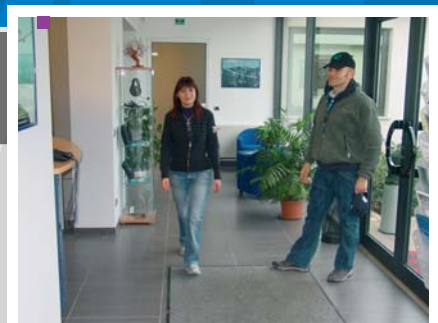

Urbe Aero FTO is using the most modern technologies and newest dynamic teaching techniques to provide its students the best training possible. All of this takes place in a comfortable and elegant training environment.

Urbe Aero FTO flies a fleet made up of new Diamond Aircraft and has a team of highly qualified and professional instructors with wide ranging experiences in all sectors of Aviation.

Urbe Aero FTO presently utilizes a FNPT II DAI-SIM for IFR training and this device will be joined by a Mechtronix Ascent XJ Trainer in the first quarter 2012. This simulator will enable you to follow MCC/JOT\* courses and to become familiar with the procedures and the cockpits of commercial aircraft type 737NG.

Urbe Aero FTO, your flight school.

# DISTANCE LEARNING COURSES

## The Courses and The Fleet

### Flight training for professionals and for enthusiasts.

Urbe Aero FTO offers the following courses:

- soon to be approved Aerobatic courses
- **PPL** Private Pilot License
- **CPL** Commercial Pilot License
- **IR** Instrument Rating
- **ATPL** Airline Transport Pilot License Integrated or Modular
- **MCC** Multi Crew Coordination
- **JOT** Jet Oriented Training
- **MEP** Multi Engine Piston Rating

Urbe Aero FTO also organizes Flight Instructor courses at all levels, provides renewals and revalidations, converts non JAA licenses, holds Aviation English courses and is an Authorized TEA (Test for English Aviation) Testing Center.

Urbe Aero FTO operates a fleet consisting of brand new Diamond Aircraft types: DA20-C1, DA40 Next Generation and DA42 Next Generation with Garmin G1000 Glass Cockpit Avionics and Synthetic Vision Technology (3D).

## Mechtronix Ascent XJ: Boeing 737-800 like

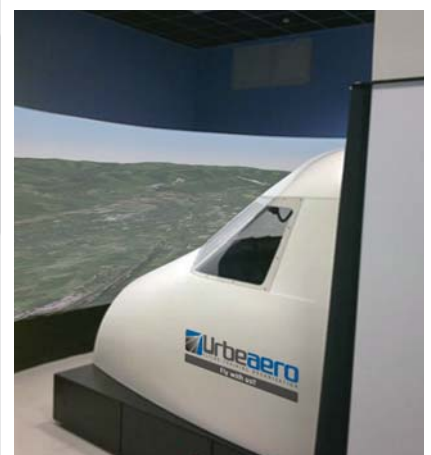

Simulator for MCC and  
Jet Oriented Training Courses

Urbe Aero FTO is among the top FTO's in Europe and the first FTO in Italy which will train its students on an Ascent XJ Trainer.

Urbe Aero FTO is firmly convinced that is very important for students to be trained and become familiar with Commercial Airline Cockpits. Commercial Airlines place great emphasis on how students have been trained.
